

# CAPABILITIES STATEMENT

## ABOUT TVAR SOLUTIONS

TVAR Solutions was founded in 2006 as a small business value added reseller committed to providing industry leading technology solutions to enable our Citizen Services, DOD, and intel customers Headquartered right outside Washington, DC, with employees across the country, our location enables us to support our customers across the US. Our personnel maintain multiple levels of security clearances along with vendor training and certifications, which allows TVAR Solutions to deliver excellent value to our customers. Our customer-first, solution-oriented approach ensures Federal Government agencies and associated contractors have access to innovative, reliable, and cost-effective IT solutions.

As a leading solutions provider, we have partnered with over 100 established and emerging technologies, enabling us to engineer, develop, and align the appropriate technology solutions to enable the mission.
